

EMS Policy

Doc. No: SPTR-EMS-POL-D-270224-000-001-000

Commitment to the Environment

SPTR-Asennus Oy is committed to environmental sustainability and excellence. Aligned with ISO 14001:2015, our Environmental Policy reflects our dedication to protecting the natural world and serves as the foundation for our Environmental Management System (EMS).

Purpose and Context

This policy aligns with the purpose and scale of SPTR-Asennus Oy, addressing the environmental impacts of our activities, products, and services. It integrates sustainability into our business processes for a better future.

Environmental Objectives Framework

Our policy establishes a framework for setting and reviewing objectives, ensuring compliance with legislation and driving continuous improvement.

Commitments

- **Environmental Protection:** Prevent pollution, minimize our ecological footprint, mitigate climate change, and protect biodiversity.
- **Compliance:** Fulfill all legal and other environmental obligations.
- **Continual Improvement:** Enhance EMS performance through proactive measures and innovation.

Communication and Implementation

This policy is communicated within SPTR-Asennus Oy, made available to interested parties, and reviewed regularly for relevance and effectiveness. Its success depends on the active participation of all employees, supported by necessary resources and training.

Declaration

SPTR-Asennus Oy is steadfast in its responsibility to safeguard the environment for future generations and conduct business sustainably.
